DETAILED ACTION

1. This Office action is in response to Applicant's amendment's, filed on 7/17/2002.
2. Claims 38-48 are pending.

CLAIM REJECTION- 35 USC 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
4. Claims 38-48 are rejected under 35 U.S.C. 112 second paragraph to because of the following informalities:

Claims 38-48 , in the preamble there are method steps. However in the body of the claim there are physical entities (" dept instrument", "business entity") along with functional language and no positively recited steps. This renders the claim indefinite. The scope of the claim is not ascertainable since it is not clear how these entities can make up a method.

Also in claim 38 the phrase "said share or shares of equity of said business entity" line 19 is confusing. It does not make any sense.

CLAIM REJECTIONS - 35 USC 101

5. 35 U.S.C. 101 reads as follow:

Art Unit: 3621

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

6. Claims 38-48 are rejected under 35 U.S.C. 101 because there is no computer performing any step.

CONCLUSION

7. The prior art made of record and relied upon is considered to applicant's disclosure.
